There are many other **amazing beings** that have created free videos, articles etc. that you can find on the internet. We **greatly value and appreciate that they have done that**, and share their information with freely with you. Here on our site we have tried to collate some of the best ones and make them available to you here in conjunction with our own information.

Much of this information alerts you to the **problems** in the world today. We greatly honour that awareness and knowlege is the **first step** to able to create solutions to those problems.

However, there is not a lot of free information out there that **gives you solid solutions** - with over **500 processes completed in Australia** that

provides a tangible remedy to those problems on a local level, and has established a viable track record for us and our members to build on moving forward.

We have taken the solution to these problems to the **next phase**, in order to **implement real solutions on a local level.**

Please understand that creating this system was a **huge cost of our resources**, and our core participants had to **make great sacrificies** in order to be able to bring this amazing program to you.

If you knew us personally, **you would understand what we have had to give up in order to create this site and its contents for you.**

Essentially, we understand that not everyone has the luxury of being able to donate their time and resources to help their fellow man - ***even if they want to*** - because many of us still have to feed, house and clothe ourselves **within the monetary system** we are trapped in currently.

To demonstrate this - **just ask yourself** - what have you done for the betterment of mankind ***for free?***

We have provided a free video, audio and report for free... plus the **entire progam which gives back to our members and the community at large.**

How long have you been doing this and what rate of success have you had?

Mark liberated himself using his four step process and together with his partner they have completed **over 500 processes** including personal loans, credit cards, car loans and other N-F-P structures.

I came across this sort of thing years ago and the people that were making a stand against the banks were not doing so with much success. What is different with what you are doing?

We offer people practical solutions that **have been proven to work**. Plus we help people understand how it all happened and open them up to new ways of living and being in the world.

It is not just about money. It is about **empowered community uniting together** to create the much needed change in the world that our current monetary system has created.

Can I go through these modules more than once?

Absolutely. The Truthology 101 Learning Program is online and **available for you to watch 24/7,** and you can go through them as many times as you like.

You could get through the entire workshop in a **full day** if you apply yourself, or you can go at **your own pace.**

I have friends in other countries that I would like to share this information with. Does this information apply to them as well?

The Truthology 101 program is designed specifically for Australians, however our processes and organisational structures work both here and overseas. We are currently in the process of expanding to other Western Commonwealth countries, and will soon announce the next step of our growth.

Much of the information in the workshop would be very informative to people in other countries, especially those in the commonwealth group, although at this point they would miss out on the practical local solutions we provide to the membership base here in Australia.

I have 3 credit cards that are behind with the payments and am having trouble meeting my mortgage payments. What can you do to help me and do you guarantee it?

Each situation is different. If your creditors have already taken legal action against you it is unlikely that we are able to help, but well worth asking the question.

The best way to start is to watch the Truthology 101 modules to see if our system is right for you, then **speak to a Truthology Mentor** to assess your situation for suitability and answer any questions that you may have.

Mark heads up a team of experts in this field so that we can stay at the forefront of this extraordinary revolution. Whilst we have had great success and do our best to make sure that we on the leading edge, we are unable to offer any guarantees and have to assess each case on its own merits.
